

0 means that a test has failed (which is a good outcome!)

1 means that all tests passed (which is a bad outcome).

S0 weight 35/100. All other mutants (s1-s13) weight 1/13\*65.

% is the number of zeros with the above weights. The higher the better.

Yellow groups are those that have been misreported in learnIT originally (we are really sorry!)
